

## REMARKS

In the Final Office Action dated October 7, 2005, the Examiner rejected claims 1-10 but allowed claims 11-20. As of the Advisory Action of February 3, 2006, only claims 11-20 remain allowed. In order to bring the application as a whole in condition for allowance, applicant has amended the claims to cancel claims 1-10. By virtue of this amendment, the only remaining claims are allowed claims.

The Examiner had objected to claim 19 based on an informality. Claim 19 has been amended to add a period at the end of the claim. With this amendment, it is believed that amended claim 19 is no longer objectionable. A marked up version of the claims are attached. Applicant has also amended the specification to indicate that light means and circuit means are shown in the drawing figures. No new matter has been entered by virtue of these amendments.

Applicant notes that securing means, adhesive materials, and clamps are all well known in the art. The Examiner has already allowed claims 11-20, including claims that claim the elements of securing means, adhesive materials, and clamps. Furthermore, the Examiner has noted to applicant that removal of these elements from the claims would impermissibly raise new issues requiring further consideration of the already allowed claims. For these reason, applicant makes no changes in the application regarding the disclosure of securing means, adhesive materials, and clamps.

Applicant acknowledges the continued allowance of claims 11-20. The Applicant respectfully requests that, because the only remaining claims in the application are allowed claims, the application as a whole is now in condition for allowance. Applicant respectfully requests that a timely Notice of Allowance be issued in this case.

The Director is hereby authorized to charge any fees which may be required, or credit any overpayment to Deposit Account Number No. 50-3021 belonging to Brown Winick Law Firm.

Respectfully submitted,
